

## Press release by Aqseptence Group (English version)

Aarbergen, 06.11.2023 - Aqseptence Group is pleased to announce that the company has been awarded the coveted "Global Market Leader" seal by the leading business magazine WirtschaftsWoche for its full-service solutions in the field of filtration, separation and water technologies for various applications.

For several years now, the leading business magazine WirtschaftsWoche has been honoring medium-sized global market leaders from the DACH region, the 450 so-called "hidden champions". These companies share many of the following positive characteristics: they occupy high-growth market areas with a leading international position, pay attention to a solid financial structure and are characterized by a high proportion of exports.

The seal is awarded annually by the Academy of German Global Market Leaders #ADWM in cooperation with the renowned University of St. Gallen and is published in the leading business magazine WirtschaftsWoche.

### **About Aqseptence Group**

The company is headquartered in Aarbergen near Frankfurt am Main and employs around 1,500 people worldwide. Aqseptence Group is a global supplier of specialized products, equipment and system solutions for water treatment and liquid/solid separation. The company is proud to unite some of the most renowned brands in the industry, some of which have been serving customers in industry as well as municipalities for more than 180 years. The roots and foundation of the company are the traditional product brands such as Passavant, Geiger, Noggerath, Johnson Screens, Diemme Filtration, Airvac and Roediger.
